- Team collaboration
- Willingness to learn
- Responsibility

Technical Skills

- Photoshops
- C++ coding
- MySql
- Python
- Java
- Web Development

Education

- Kwang Hua High school 2018 - 2023
- Diploma in ICT specialism interactive technology
Asia Pacific University 2024-Current
CGPA: 3.44

About Me

I am an Information Technology student specializing in Interactive Technology, seeking a **mandatory internship starting from 18 May 2026**. Although the required internship duration is 8 weeks, I am **open to extending the internship period if required by the company**.

I have a strong interest in the IT industry, with a focus on building practical and efficient software solutions. I approach technical problems with structured logic, analytical thinking, and disciplined coding practices. I am also committed to long-term career development and would welcome the opportunity to continue contributing to the company after the internship, given a strong mutual fit.

Experience

- **Store keeper**
Camcote Company 2023-2024
 - Handled inventory records and ensured accuracy in stock management processes.
 - Maintained organized and systematic workflow when managing repetitive operational tasks.
 - Developed attention to detail, responsibility, and process discipline.
- **Class representative**
Asia Pacific University 2025/8-2025/11
 - Coordinated communication between lecturers and students and handled class administrative updates to ensure process consistency.
 - Improved organizational awareness and teamwork coordination in a structured environment.
- **Devmatch Hackathon**
Asia Pacific University 2024/9
 - Participated in a hackathon focused on rapid system development under time constraints.
 - Collaborated with team members to design and implement functional solutions.
 - Practiced problem-solving and basic software development workflow in a competitive environment.
